Mohammadhossein (Ashkan) Sadeghi

FRONT-END DEVELOPER

Results-driven Front-End Developer specializing in React.js, Next.js, and TypeScript. Experienced in building scalable, high-performance web applications, mentoring junior developers, refactoring legacy systems, and delivering exceptional user experiences through clean architecture, API integrations, and modern development practices.

PROFESSIONAL EXPERIENCE

- Sonat — Front-End Developer

Sep 2025 – Apr 2026 | San Diego

 - Refactored legacy UI components to improve scalability, maintainability, and performance.
 - Led technical code reviews and enforced modern frontend best practices.
 - Integrated RESTful APIs to deliver seamless, data-driven user experiences.
- Maktab Sharif — Front-End Mentor

Sep 2024 – Present | Tehran

 - Mentored junior developers in React, JavaScript, and frontend architecture.
 - Conduct in-depth weekly code reviews to improve code quality and maintain standards.
 - Facilitate workshops on modern frontend development standards and tooling.
- ZARSIM — Front-End Developer

Jan 2025 – Sep 2025 | Tehran

 - Built responsive, performant web interfaces using React and modern CSS.
 - Resolved complex cross-browser compatibility issues across multiple platforms.
 - Collaborated closely with product designers to transform wireframes into production-ready apps.
- Freelance — Front-End Developer

Jul 2024 – May 2025

 - Developed reusable component libraries for faster project delivery across client portfolios.
 - Delivered polished, high-converting user interfaces for multiple international clients.

FEATURED PROJECTS

- Nova Star AI — Advanced AI Chat Application built with Next.js (Live Product)
- Elegant Sounds — Full-Stack Functional E-commerce Platform using Next.js
- TSX-Shoes — Modern Shoe Store built with React.js & TypeScript
- Markdown Text Editor — Real-Time Editor built with React.js
- Vanilla Shoes — E-commerce Website built with Vanilla JavaScript
